

Gas Pump Billboard Advertising Pricing

Cost Efficient.

With Gas Pump Billboard Advertising your dollars buy a 3-5 minute length of exposure per viewer on a reoccurring basis.

Measurable.

This medium is directly measurable through exclusive offers or gas station receipt redemption.

Flexible Target Marketing.

Target a broad demographic that resides in a multi-state area or a very focused group in a specific neighborhood.

Consistent Exposure.

Many stations are open 24 hours a day, 7 days a week, 365 days a year. Most drivers visit stations several times each week.

Better Visibility and Impact.

Your eye-level billboard dominates the viewer's attention as they refuel. You reach those who flip channels during radio or t.v. commercials and who don't read newspapers.

This Level Two Pricing is for our Michigan Market. For multi-state advertising we will need to provide a specific quote. Our minimum agreement is five stations for six months. Each station will have four (4) billboards installed above the gas pumps. Advertising charges are billed per month.

6 Month		15 Stations	25 Stations	40 Stations	65 Stations	100 Stations
	Billboard Quantity	60	100	160	260	400
Monthly Cost Per Station	\$190	\$178	\$168	\$160	\$152
